

Hot Tub Collection

Jacuzzi[®]

In a world
obsessed with doing more,
we invite you to

UNDO®

Now more than ever,
we need to
take care of ourselves
and *not do* anything
from time to time.

It transforms
how we feel
and how we feel
about our world.

Not doing
never felt so good.

Our story originated when Ken Jacuzzi, age 2, was diagnosed with rheumatoid arthritis. His father invented the world's first at-home pump to provide pain-relieving hydrotherapy.

From that moment forward, Jacuzzi has deepened its expertise in moving water, bringing joy to millions of homes around the world.

Jacuzzi brand products are designed to restore balance and heighten the joys and benefits of hydrotherapy. Our products are enjoyed in more than 100 countries and are manufactured by thousands of employees in five countries.

Built with the same care today
Through decades of research and development,
Jacuzzi has introduced breakthrough products that
engage the senses, nurture the body, and restore
the mind like no other.

Now we introduce our latest breakthrough—
True Water™. We've brought the power of nanobubble
technology to home spas to continually deliver clear,
sparkling water that's 99.9999% chlorine-free.
There's a difference you can see, feel, and smell.

The background of the image is a soft, out-of-focus photograph of a vast blue ocean meeting a bright, hazy sky. The water in the foreground shows gentle ripples, while the horizon line is blurred, creating a sense of depth and tranquility. The overall color palette is dominated by various shades of blue and white, contributing to a calm and peaceful atmosphere.

The most extraordinary pause in the world.®

It's the pause that lets you UNDO®.

A wellness retreat into the pulsating forces that revitalize the mind and body.

Jacuzzi hydrotherapy increases blood flow to relax muscles, alleviate pain, and improve skin tone.

And over time, this relaxing pause can reduce stress and improve sleep quality.

This is what you do when you UNDO.

A close-up, high-angle shot of a person's hand resting on the edge of a Jacuzzi. The water is dark blue and filled with numerous small, white bubbles that are rising and breaking, creating a textured, foamy appearance. The lighting is soft, highlighting the contours of the hand and the individual bubbles.

Let it all soak in

Behind this extraordinary pause lives the Jacuzzi® hydromassage, a distinctive and unrivaled experience. Heat, buoyancy, and our optimal massage all come together for your relaxation, joy, and well-being.

Heat

Dilates blood vessels to increase blood flow, delivering more oxygen to the muscles.

Optimal massage

Boosts circulation and releases endorphins, providing relaxation from head to toe.

Buoyancy

Creates weightlessness and 360° support, relieving pressure on joints, muscles, and nerves.

Heavy duty, light touch

Aqualibrium[®] produces the perfect balance of air and water. Jacuzzi[®] PowerPro[®] jets emphasize 360° air induction, to provide a unique high-volume, low-pressure massage. These exclusive jets gently deliver a deeper, more powerful massage.

The massage that's right for you

Everyone likes their massage a little different. Strategically placed Jacuzzi® PowerPro® jets target specific muscle groups with a completely tailored massage. Adjust the flow and intensity from each jet. It's the massage that's right for you.

- J-300™ exclusive
- J-LX®/J-400™ exclusive

NX

Targets the sensitive neck area with a highly focused stream to relieve tension and strain. Move nozzle to personalize massage direction.

FX

Exclusive spiral design focuses on smaller muscle groups with an energetic impact, stimulating pressure points in the shoulders, back, and feet.

MX

The original performance therapy jet. The MX includes a completely adjustable nozzle with a 60° range for bold, high-volume massage action right where you need it.

RX

Delivers a full-coverage massage—producing a powerful kneading motion to relieve muscle tension, primarily in your middle and upper back.

PX

Soothes discomfort in the hands and wrists by providing relief to pressure points on the hands, and gently pulsing on palms and wrists.

BX

Its patented design, developed to reinvigorate leg muscles, delivers a stimulating massage with our highest air-to-water ratio for a bubbly effect.

A new frontier in wellness

Another first from Jacuzzi, we have introduced our exclusive Infrared and Red Light therapy across a full range of wellness products—from saunas, to swim spas and hot tubs. It works in harmony with hydrotherapy to soothe and rejuvenate beneath the surface.

IR

Rejuvenation meets relaxation

The rejuvenating powers of Infrared and Red Light therapy work together deep beneath the skin's surface to relieve pain, improve range of motion, and help you reach a state of mindfulness.

Relief where it's needed most

Low back pain is the leading cause of disability worldwide,¹ so we strategically placed IR and Red Light therapy to target deep tissue within the lumbar region of the lower back.

Backed by research

Substantial evidence supports the efficacy of IR and Red Light therapy to relieve low back pain.² To ensure safety, it's been tested by certified third-party Intertek® test laboratories.³

² Source: 2008 Cochrane Review
³ The IR and Red Light device met the IEC 62471 Photobiological Safety Standard

Please be seated

Decades of expertise drive our design process, to deliver personalized comfort. The collection of seats in each Jacuzzi® Hot Tub facilitates full-body hydromassage, while balancing the flow to every seat for the best experience.

A

B

A

FX-IR therapy seat

Neck, shoulder, and back relief

A collection of FX jets combines full back and neck hydromassage with Infrared and Red Light therapy that targets deep tissue within the lumbar region of the lower back. It's an unprecedented and rejuvenating hot tub experience.

B

MX therapy seat

The original in low-back relief

Ease into this deeply contoured seat to release tension in the lower back with a high-volume, low-pressure massage. Maximized air output delivers a soothing deep-tissue massage. Paired with neck jets for a fully relaxing experience.

C

RX therapy seat

Comforting back and shoulder relief

A ring of spinning RX jets targets key back and shoulder muscles to soothe stiffness and release tension, while neck jets add further relief. It's a key part of our highest performing hydromassage.

C

Each seat is sculpted with an ergonomic focus, to cradle the contours of the body. Specialized Jacuzzi® PowerPro® jets—recessed for your complete comfort—are thoughtfully positioned to effectively target key muscles.

ProAir™ lounge

Full-body relief

Designed to distribute body weight evenly for a comprehensive massage. The ProAir lounge eases tension in the shoulders and back, by combining FX and FX-R rotational jets along the center of the back. Exclusive BX jets target the calves with an invigorating, bubbly massage, and FX jets penetrate the muscles of the feet with therapeutic relief.

The most beautiful water

Pure. Fresh. Clear. Sparkling. The most extraordinary pause in the world starts with the most beautiful water. We are proud of our commitment to bring you exclusive, innovative water care technologies in all our hot tubs, as we strive to bring the natural joys of wellness to people everywhere.

Welcome to the next generation of water care

Jacuzzi is delivering the most beautiful water with the True Water™ system. Inspired by nature, True Water makes spa water fresh and clear without all the harsh chemicals. Trillions of oxygen-filled nanobubbles continuously scrub away contaminants to deliver clear, sparkling water that is 99.9999% chlorine-free. That's even less than drinking water.¹

You'll see, feel, and smell the difference.

TRUE

A close-up photograph of a hand holding a stream of water. The water is splashing and creating numerous bubbles of various sizes. The background is black, which makes the water and bubbles stand out. The word 'TRUE' is written in large, white, outlined letters across the top of the image.

True Water™ is standard on all J-LX® and J-400®
Collection Hot Tubs and optional on the J-300® Collection.

A breakthrough in clean¹ water

True Water™ brings the revolutionary power of nanobubble technology to home spas—the same clean water technology used by NASA spacecraft.² Inspired by nanobubbles produced in nature by crashing waves and waterfalls, True Water releases trillions of oxygen-filled nanobubbles—5,000 times smaller than a grain of sand. They remain in the water for days, oxygenating the water to remove 99.9% of bacteria and viruses,³ and deep clean every part of your spa.

Nanobubble
invisible to the naked eye

Microbubble
the size of a pollen grain

Fine Bubble
the size of a poppy seed

Truly easy to care for

Most spas require daily upkeep, but with True Water you only need to spend about 15 minutes per month caring for your water. The magic of True Water means you'll spend far less time maintaining your hot tub and more time relaxing in it.

You'll only find it in a Jacuzzi® Hot Tub.

¹ Clean is defined as the removal of microscopic (down to 3-micron level, varies by model) debris from the water.

² Source: *Research Campaign: Use of Nanobubbles for Enhanced Gas-Liquid Contacting in Spaceflight Environments*. Learn more at nasa.gov.

³ Simulated in-use laboratory study tested against *Escherichia coli*, *Enterococcus faecium*, *Listeria pneumophila*, *Pseudomonas aeruginosa*, and coliphage (viral surrogate) demonstrated a 99.9% reduction in bacteria and viruses in as little as 2 hours.

A holistic approach to water care

Every Jacuzzi® Hot Tub includes filtration and water treatment technology, to deliver exceptional cleaning power and reduce the need for chemical sanitizers.

UV-C technology is standard on all J-200™ Collection Hot Tubs.

Clean water, less effort

Harness the power of active oxygen for a hands-free approach to water care. ClearRay Active Oxygen[®] System works harder to clean the water longer. A UV-C bulb is directed toward the water, which then creates active oxygen molecules that break down and neutralize contaminants.

They clean more, so you clean less.

5-Stage¹ filtration process

Cleaner² water means fewer water changes and less effort for you.

Stages 1 and 2

The skimmer and unique mesh ProCatch[™] bag work together to clean the surface water and trap large debris for easy removal.

Stage 3

This exclusive system features a ProClear[®] filter, connected directly to a ProStream[™] filtration pump, that filters an incredible 35 gallons per minute, giving you clean water, faster.

Stage 4

The ProClarity[®] polishing filter polishes the water down to a 3-micron level.

Stage 5

The ProClear filter activates and cleans when you are using the hot tub. This doubles the filtration when you need it most.

1 Stages of filtration may vary by collection.

2 Clean is defined as the removal of microscopic (down to 3-micron level, varies by model) debris from the water.

Tap into total relaxation

Our patented, industry-first SmartTub[®] system is more than an app. It's like a remote control and command center that lets you monitor, operate, and protect your Jacuzzi[®] Hot Tub. It's the smartest and easiest way to use and care for your spa.

Control

You can adjust temperature, jets, and lights, and lock down your hot tub to prevent usage. Set up your own automated usage schedule, receive alerts, and check your hot tub status, whether you're at home or on the go.

Convenience

SmartTub provides remote monitoring and control anywhere in the world through smart phones, smart devices, and wearables, as well as AI helpers like Siri®, Alexa®, and Google Assistant®.¹ You can also track energy usage reports and enjoy new features, which are updated automatically. Plus, SmartTub performs daily diagnostic checks to help ensure peak performance.

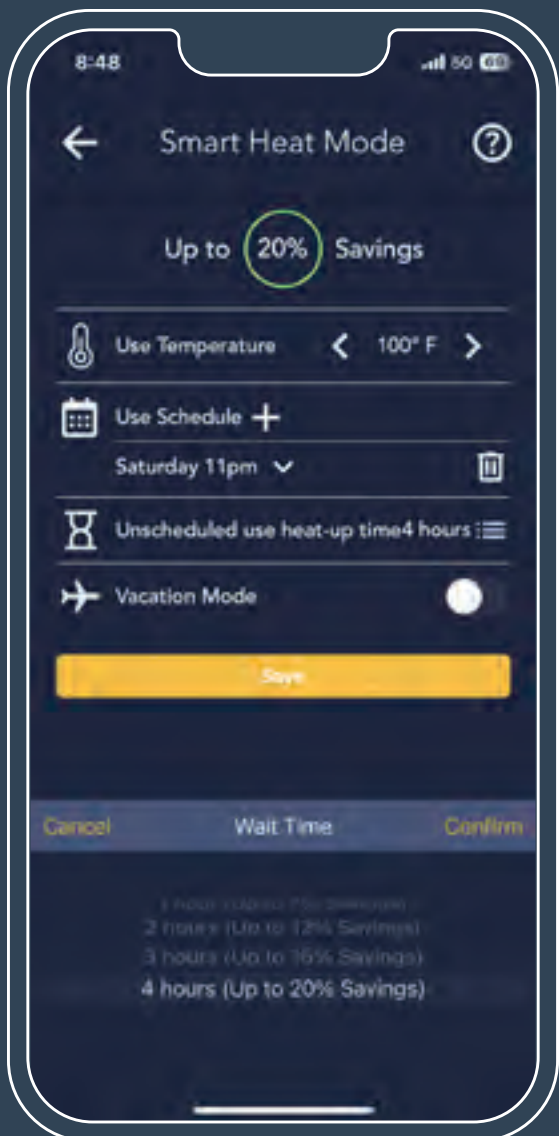

¹ Siri, Alexa, and Google Assistant are registered trademarks of their respective owners.

Energy efficiency

Smart Heat Mode helps you optimize savings by using your hot tub in the most energy-efficient way possible, such as heating hot tub water during off-peak hours. It lets you monitor, track, and customize hot tub usage, and can reduce standby power up to 25%.

SmartTub® also dynamically calculates and displays real-time savings and includes a one-touch Vacation Mode that automatically minimizes water heating while you're away.

Peace of mind

With SmartTub, you can connect via cellular and use Wi-Fi as a backup. It chooses the best connection for you and switches when needed to ensure you have reliable connectivity in all environments and situations.

Integrated sensors send automatic alerts to you and your dealer if your hot tub needs attention. It can also detect power outages to help protect against freezing or overheating. SmartTub will even send maintenance reminders to keep your spa running optimally for years.

Enhanced 24/7 monitoring

Increase security and savings with our new wireless sensor package, including three sensors that trigger real-time alerts.

The Fill Sensor saves time by detecting when your hot tub has finished filling, draining, or when water level is too low. The Cover Sensor detects when cover is open so you don't run up your heating bill. The Water Sensor protects your investment by detecting when water is near sensitive hot tub equipment.

- Working Properly
- Reminder
- Needs Attention

The serenity is in the details

We design spas that run for years with minimal care. Durable, reliable, and built for your pleasure, from the quality of materials to the performance you expect.

A

ProLast™ cover

Lock heat in with our durable ProLast Cover. The vacuum seal retains heat and maintains water temperature longer for lower operating costs.

B

Illuminated waterfall

A cascading stream of water with soothing sounds creates a calming ambient atmosphere.

C

ProFusion™ shell

Highest-quality acrylic, a bonded vapor barrier, and a resin composite provide superior durability, even in extreme temperatures.

D

High-performance energy-saving insulation

Insulation surrounds the shell and fills the cabinet, resulting in lower operating costs, quieter operation, and reliable performance in the coldest climates.

E

Tool-free cabinetry

Durable, maintenance-free cabinetry withstands heat and cold and stays beautiful longer.

F

SmartTub® sensor package

Includes a Cover Sensor to ensure your cover is always on; a Fill Sensor to save time filling or draining and let you know when water level is low; and a Water Sensor to detect when water is near sensitive components.

G

Propolymer base

This strong, rugged foundation protects and insulates the spa from moisture and the elements.

Live in the moments you choose

No matter who you are and how you live, Jacuzzi has the way to UNDO[®] for you. With four hot tub collections and endless ways to customize your hot tub, you can be sure to UNDO however you choose.

J-LX® Collection

Clean, simple lines frame the welcoming water of our newest product family. With our patent-pending IR and Red Light therapy taking hydrotherapy to the next level, we're leading the industry once again, by creating the ultimate wellness experience.

¹ See model details. Available on J-300™ models 5-6 seats and larger.

² Available as aftermarket upgrade only.

Optional upgrades

True Water™ + SmartTub® package

True Water keeps spa water clear, beautiful, and 99.9999% chlorine-free. With SmartTub, you can monitor and control your hot tub from anywhere.

Infrared and Red Light therapy package

Experience the rejuvenating powers of Infrared and Red Light therapy to relieve pain, improve range of motion, and help you reach a state of mindfulness.

Extreme cold weather package

Designed to help your hot tub withstand winter's chill, the package includes SmartSeal insulation that retains heat and reduces energy costs, as well as an upgraded cover designed for cold weather.

Entertainment package

Personalize your hot tub playlist with the BLUEWAVE spa stereo system. Connect via Bluetooth to play music from your phone through the hot tub speakers with full surround sound.

J-200™ Collection

Pleasing aesthetics, rejuvenating hydromassage, and legendary comfort are what Jacuzzi is famous for, and that sets the foundation for our most affordable hot tubs. Take a seat and enjoy the view from this warm-water escape.

Wellness starts with a world that is well.
Learn more about our sustainability commitments.

Feel yourself transformed.

Immerse yourself
in the experience that made
us a household name.

Feel a weight lift
at the mere thought of warm,
bubbling water.

Let stress wash away
as you step in.
Emerge rejuvenated,
to take on the day.
And let the long-lasting,
refreshing energy transform
your body and mind.
